SUMMARY

Frontend Engineer with over 2 years of experience building cross-platform web and mobile applications, proficient in TypeScript, React, React Native, and Vue. Skilled in performance optimization, state management, and observability, with a strong foundation in clean architecture and design systems to deliver scalable solutions.

WORK EXPERIENCE

Junior Frontend Engineer

March 2024 - April 2025

Broom.id

Jakarta, Indonesia

- Developed and optimized cross-platform mobile and web applications using TypeScript, React, and React Native, streamlining the full mobile workflow across Android Studio and Xcode with reliable OTA deployments via CodePush and EAS Update.
- Integrated Datadog for real-time observability, structured logging, and performance tracking, resulting in faster bug detection and more controlled production incident response.
- Implemented scalable API integrations and Redux for state management, and delivered a mobile push notification feature using OneSignal that improved real-time KYC status visibility for end users.
- Collaborated with UI/UX teams to build a unified Design System package, reducing cross-team development time and ensuring consistent visual standards across the platform.
- Maintained high code quality with Jest and React Testing Library, achieving a 70% reduction in production bugs, while leveraging AI-assisted tools (Cody, Locofy.ai) to accelerate sprint velocity in an Agile environment.

Software Engineer

October 2022 - December 2023

Mazecare

Hong Kong

- Developed high-performance healthcare web applications using TypeScript, Vue.js, and Nuxt.js, delivering stable, scalable, and highly interactive platforms that improved overall user experience.
- Led end-to-end development of the inventory and stock management module from scoping to production, enabling real-time tracking and precise inventory control that optimized operational efficiency.
- Integrated WhatsApp Business API to establish a secure, two-way communication channel between patients, providers, and administrators, improving engagement and support responsiveness.
- Built a scalable data management layer using GraphQL and Pinia, and developed a reusable component library that accelerated feature development and ensured UI consistency across the platform.
- Applied performance optimization techniques including lazy loading and code splitting, reducing initial load times and improving overall application responsiveness.

Frontend Developer Intern

March 2022 - May 2022

Radya Labs

Bandung, Indonesia

- Developed and maintained a scalable Customer Management System (CMS) web application using TypeScript, React, and Next.js, ensuring type safety and enterprise-level maintainability across the codebase.
- Implemented Zustand for global state management and Axios for real-time API integration, optimizing data flow and ensuring seamless client-server communication.
- Enhanced application performance through lazy loading and code splitting, resulting in faster load times, while collaborating with cross-functional teams to translate technical specifications into reliable, on-schedule feature releases.

EDUCATION

Bachelor of Engineering in Geomatics Engineering
Sepuluh Nopember Institute of Technology (ITS)

2015 - 2019
Surabaya, Indonesia

GPA: 3.58 / 4.00

Thesis: Developing A Virtual Reality GIS (VR-GIS) of Cultural Heritage Building Site. Case Study: Sari Temple, Yogyakarta, Indonesia - 3D geospatial visualization using spatial data processing and immersive rendering.

SKILLS

Languages & Frameworks: TypeScript, JavaScript, React, React Native, Next.js, Vue.js, Nuxt.js, HTML, CSS, Node.js

State Management & Data: Redux, Pinia, Zustand, GraphQL, REST API, Axios, PostgreSQL, MongoDB

Testing & Observability: Jest, React Testing Library, Datadog, Web Performance

Styling & UI: Tailwind CSS, Bootstrap, Figma

Mobile Tooling: Android Studio, Xcode, CodePush, EAS Update

CI/CD & Deployment: GitHub Actions, Vercel, Netlify

Tools: Jira, ClickUp, Confluence

ADDITIONAL INFORMATION

Certifications: Full-stack Web Developer Bootcamp Academy (2022)

Awards & Activities: Guest Speaker of International Commtech Integrated Initiative (2017), BIG Geo-Innovation Bootcamp, Top 25 Innovation (2017), Funded stage of The Student Creativity Program (PKM) - KC (2017)
